and Reproductive
Medicine
SCIENTIFIC RESEARCH

LE CONSORTIUM MAROCAIN
D'ONCO-FERTILITÉ

SAVE THE DATE

22ND WORLD CONGRESS ON IN VITRO FERTILIZATION

THEME : NO BORDERS IN ART

NOVEMBER
7th - 9th

2024

MARRAKECH
MOROCCO
PALAIS DES HABOUS

DAY 1

THURSDAY 7TH

HALL A :

SESSION

LECTURE

SPEAKER

Thursday morning

Precongress Courses

Inauguration speech

Keynote

Fertility as a marker of general health and long term follow-up of ART mothers

S. Hamamah

15H00-16H30

Understanding Polycystic Ovarian Syndrome

Y. Ait Benkaddour

PCOS : Polycystic Ovary Sindrom

Fertility management in PCOS patients

Y. Khalaf

Ovarian hyperstimulation syndrome (OHSS) Free Clinic : dream or reality?

D. Baldani

Refractory PCOS : how to manage ?

S. Palomba

Hot topic

Psychological aspect of the Ovarian Polycystic Syndrome

I. Louanjli

Coffee Break

Hot topic

Noninvasive PGT- Hype or Hope

A. Doshi

Repeated Pregnancy Loss (RPL): Diagnostics and management

Prognostic importance of non visualized pregnancy loss

M. Bedaiwy

Management Approaches for Repeated Pregnancy Loss : Current Strategies and Future Directions?

B. Toth

Empirical treatment for R.P.L : Where is the evidence in 2024?

M. Bedaiwy

Psychological Impact of Repeated Pregnancy Loss : Supportive Care and Coping Strategies

I. Louanjli

OPENING CEREMONY THURSDAY 7 PM

DAY 1

THURSDAY 7TH

HALL B :

SESSION

LECTURE

SPEAKER

Thursday 17H30

Coffee Break

Main Hall Communication

The use of autologous platelet-rich plasma (PRP) in embryo culture to obtain high-quality embryos

M. K. Kim

Future of ART

Standardization of laboratory practices across a clinic network: How to do it and is it worth it?

A. Campbell 

Automation in IVF

Y. Cabello 

Modeling human implantation in vitro: insights into embryo aneuploidy

M. Popovic 

What's new with IVF lab accreditation: Cairo Consensus 2024 accreditation and future proofing of IVF laboratories

X. Pollet 

HALL C :

Thursday 17H30

Coffee Break

17H30 - 19H00
Repeated implantation failure

Determining diagnostic criteria, causes and pathophysiology of repeated implantation failure (RIF)

H. Sallam 

Autoimmunity, systemic inflammation and RIF. Is chronic endometritis (CE) the missing piece of the jigsaw?

T. Motrenko 

Approaches from the point of sperm and embryo to improve Implantation in RIF

M. Benkhalifa 

Approaches from the point of Endometrium to improve Implantation in RIF.

A. Makrigiannakis 

Main Hall Communication

The prevalence of an endogenous LH rise from hCG trigger until oocyte pick-up in the fixed GnRH antagonist protocol

N. F. Wang

DAY 1

THURSDAY 7TH

ROOM 1 :

SESSION

LECTURE

SPEAKER

Coffee Break

Joint Session
with the Turkish
Society : Hot
Topics in ART :
Session 1

Hormonal determinants of success in
FET cycles: Fact or fiction-

A. Erdem

The relationship between infertility
and isthmocel: Does it really mater-

H. Görkemli

Could IVM be used as a measure to
overcome the trigger enigma ?-
S. Hatırnaz

S. Hatırnaz

Turkish Society
:Hot Topics in
ART: Session 2

Determinants of successful embryo
transfer-

C. Fıçıcıoğlu

Where are we for PGT/A: For who and
When?-

Ş.Ongan

Advances in IVM laboratory
applications? Is current IVM laboratory
procedures good enough?-

E. Hatırnaz

Thursday 17H30

ROOM 2 :

abstracts and poster lectures

DAY 1

THURSDAY 7TH

ROOM 3 :

SESSION

LECTURE

SPEAKER

Coffee Break

**Video
Surgeries-
ESGE**

Hysteroscopic myomectomy – from scissors to resectoscope to tissue removal systems

V. Tanos

The management of Congenital Uterine anomalies: The giant of instruments the mini resectoscope

TBD

Asherman Syndrome – when do we stop operating? Syndrome d'Asherman

R. Rabucu

TBD

U. Catena

DAY 2
FRIDAY 8TH

HALL A :

SESSION LECTURE SPEAKER

SESSION	LECTURE	SPEAKER
8H30-10H00 Adenomyosis and Fibroids	Adenomyosis, uterine contraction and implantation	V. Tanos 
	The impact of adenomyosis cytoreductive surgery in infertility patients	E. Oral 
	Removal of G3 fibroids in infertile patients feasibility and utility	U. Catena 
	New procedural approaches for fibroids and adenomyosis	R. Pabuccu 
industry symposium	Cyclopharma : Cost effectiveness of gonadotropins	S. Hamamah 
Coffee Break		
Fertility preservation	Ovarian stimulation in cancer patients : are there disease-specific considerations in terms of outcomes and safety ?	M. Khrouf 
	Oncofertility in female: ovarian tissue cryopreservation (OTC) or oocyte vitrification ?	J. Smitz 
	Fertility preservation for Diminished ovarian reserve (DOR) and endometriosis»	M. Khrouf 
	Establishing a modern fertility preservation program : keys of success	C. Wyns 
12H30-13H00	Industry Symposium : Roche Diagnostic PCOS and the Roche new extension claim for AMH	S. Nelson
14H00	Symposium Ferring	
Lunch break		

Friday AM

DAY 2
FRIDAY 8TH

Friday PM

14H00	Symposium Ferring	
Key note	How far should we go in obesity treatment before IVF	D. Baldani 
The Controversies Session	Can sperm selection improve pregnancy rates ? YES/NO	H. Russo / Y. Cabello  
	Ovarian rejuvenisation : Is it possible ?	Y. Khalaf 
	Systematic Hysteroscopy in Pre-IVF	O. Sefrioui 
	Female Infertility : A Systematic Approach To Radiologic Imaging And Diagnosis	N. Allali 
Hot topic 15H30 16H	How to rescue patients with multiple pregnancy failures due to low quality embryos.	Y. Morimoto 
Industry Symposium	Althéa : Future of contraception	P. A. Regidor
Coffee Break		
Endometriosis	Pain or infertility : what is first ?	E. Oral 
	Endometrioma Removal before ART : How and does it really matter ?	O. Sefrioui 
	Deep endometriosis management : impact in infertile patients	M. Zarqaoui 
	Surgical intervention in infertile patients : What does make sens ?	G. Hudelist 
hot topic	Stem cells and female infertility : new insights and hopes	Y. Hibaoui 

HALL B :
SESSION

Friday AM

SESSION	LECTURE	SPEAKER
Main Hall Communication	The use of artificial intelligence software to choose heterologous eggs: the brazilian experience using this technology	F. Robin 
Fast and Furious ART	Short insemination IVF protocols	X. Pollet 
	Short Oocytes vitrification and thawing protocols	J. Liebermann 
	Rescue ICSI for failed Fertilization or for immature eggs ?	X. Pollet 
	Short Blastocystes vitrification and thawing protocols.	J. Liebermann 

DAY 2
FRIDAY 8TH

Coffee Break

Embryology
1

Air quality and its impact in the IVF Lab	A. Doshi	
Current consensus on embryo assessment and grading	B. Balaban	
what should embryologist Know and resolve	T. Ebner	
The duration of cryo storage impact on Oocytes and embryo outcome	S. Hamamah	

Lunch break

Joint Session
with the
Fédération
Française
d'Etude de la
Reproduction
(FFER)

Does sperm quality impact blastulation rate ?	C. Methorst	
Usable blastulation rate and risk factors	S. Hamamah	
Vascular disorders in FET pregnancies without corpus luteum	S. Epelboin	
Facing to RIF patient : what can we do ?	N. Chevalier / N. Sermondade	 

Coffee Break

Andrology
(B)

Sperm Investigation and WHO Criterias : Are we still doing well	C. Barrat	
impact of EDCs on spermatozoa genome and epigenome	M. Benkhalifa	
The hidden face of the spermatozoa and Oocytes activation	M. Benkhalifa	
News tools for sperm selection	H. Russo	

topic

Monitoring individual practitioner results and funnel plots to identify the best and worst performers in the IVF lab.	A. Campbell	
---	-------------	---

DAY 2
FRIDAY 8TH

HALL C :

SESSION LECTURE SPEAKER

Hot topic (online)	Obstetrical outcomes for the babies from ART	A.Pinborg
Congenital uterine abnormalities	T-shape uterus Management	V. Tanos 
	Management of cervical incompetence : real indications and surgical technics	A. Watrelot 
	Hysteroscopic subtle lesions in infertile patients	S. Gordts 
	Uterus Septum : Criteria, surgical technics and their impact on reproductive outcomes	T. Motrenko 
Industry Symposium	Pharma 5 : New Recommendations on Anti-D Immunization	K. Fichtali
Coffee Break		
Endometriosis in ART	Deep endometriosis : surgery or ART first	C. Chapron 
	The future in endometriosis surgery	H. Ouzaher 
	Impact of ART on endometriosis	C. Chapron 
	Neuropelveology and deep endometriosis - what should you know about it?	G. Hudelist 
Lunch break		
Microbioma and reproduction	Uterine microbioma and its impact on endometrial receptivity, and chronic endometritis	T. Gurgan 
	How to diagnose and treat reproductive problems related to microbioma disorders?	A. Makrigiannakis 
	How to treat impaired receptivity of the uterus in fibroids, adenomyosis and endometriosis	Y. Osuga 
Main Hall Communi- cation	Endothelial contribution and biomarkers during the window of implantation (WOI) in an in vitro 3D-Human endometrium	F. P. Luongo
Hot Topic	Endometrial thickness and lining and its impact on obstetrical outcomes	C. Bécquart

DAY 2
FRIDAY 8TH

Coffee Break

Progesterone

Luteal phase support: Is it still a mystery?

E. Tavmergen

Regulation of progesterone production during the follicular phase in women

Y. C. Anderson

Novel protocols for programming FET cycles

N. Polyzos

The best routes of progesterone in FET cycles

H. Boudrar

ROOM 1:

AFFS

IS it possible to improve oocyte quality and / or Quantity?

A. Oumziane

How to manage patients with low oocyte retrieval and low maturity rate ?

P. L. Roux

How to manage low blastulation rate and poor embryo quality?

I. Wada

Invitro derived human gametes

G. Serour

Coffee Break

Joint session with The Federation of Arab GynOb Societies (FAGOS)

Genetics of Male infertility in Middle East

M. ALhalabi

Debatable role of PGT-A to do or not to do

H. Al-Inany

«Clinical Cases in reproductive genetics»

I. Aboujaoude

Lunch break

Joint Session With The Middle East Fertility Society (MEFS)

«Recent advances in female fertility preservation- Clinical»

Y. Kopeika

Recent advances in female fertility preservation- Laboratory

M. Semple

Latest development in the use of stem cell technology in Human reproduction

D. Ilic

Lessons learned from 5 decades of IVF research and practice

Y. Khalaf

Friday AM

Friday PM

DAY 2
FRIDAY 8TH

ROOM 2 :

Abstracts and poster lectures

ROOM 3 :

Friday AM

Video Surgeries-ESGE

Laparoscopy & Fertiloscopy for the diagnosis and management of salpingitis and subtle tubal lesions

A. Watrelot

Laparoscopic myomectomy/ adenomyomectomy in reproduction : the big challenge of RS

S. Gordts

«Endometrioma management : how to maximize healthy ovarian tissue preservation»

G. Hudelist

«Laparoscopic hysterectomy : between simulation and reality»

H. Ouzaher

Lunch break

Friday PM

«WORKSHOP ESCO : WORKSHOP ON TIME-LAPSE TECHNOLOGY»

How to introduce TL technology in your IVF laboratory.

T. Ebner

Improving culture conditions and laboratory workflow.

I. Cuevas-Saiz

Selecting best embryo for transfer through TL: implantation and ploidy.

T. Ebner

Reducing subjectivity: artificial intelligence and TL.

I. Cuevas-Saiz

«Dish preparations to optimise embryo culture
- Creation of patients/treatments in the equipment
- Event annotations
- How to use adjuvant TL tools»

Driven by T.Ebner and I. Cuevas-Saiz

DAY 3

SATURDAY 9TH

HALL A :

SESSION	LECTURE	SPEAKER
---------	---------	---------

Key note

Obstetrical consequences of frozen embryo transfer (FET) and impact on long term maternal health

V. V. Hoynck

Hot Debated Topics

The culture media is very important for the embryo quality and success rates. YES/NO

S. Hamamah / Balaban

Artificial Intelligence can make very important impact on IVF success. YES/NO

X. Pollet / H. Sallam

PGTA-A: is it underused ? Yes Or No

Chamayou / Y. Khalaf

Hyaluronic acid enriched transfer medium : is it useful?

N. Louanjli

Coffee Break

Industry Symposium :

Merck : Maximize success of subgroups who could benefit from r-hFSH and r-hLH supplementation

Merck group : carlo Alviggi

11H00-12H30

Reproductive Surgery

hydrosalpinges : is salpingectomy for all still the gold standard prior to IVF ? Pros / Cons

A. Watrelot
Ait Benkaddour cons

Isthmocele : surgical management (hysteroscopy and laparoscopy)

U. Catena & S. Gordts

Tubal subtle lesions impact in infertile patients

A. Watrelot

Management of intra-uterine adhesions

R. Pabuccu

Industry Symposium

Althéa : New developments in supplementation for pregnant women

C. Jamin

Lunch break

Saturday AM

DAY 3

SATURDAY 9TH

Saturday PM

14H30-15H30

Industry Symposium : Abbott Group :
Lutheal phase support : The last ARTistic touch

R. Antunes

15H30-17H00

Protocols in ART

New protocols in ovarian stimulation

N. Polyzos

frozen thawed embryo transfers in natural ovulation cycles have lower miscarriage rates than hormone replacement cycles

H. Konishi

Dual trigger for all ?

V. Donno

Curent understanding of DOR and its treatment

E. Tavmergen

Coffee Break

17H30-19H00

Andrology A

Medical management of OATS and non obstructive azospermia

C. Barrat

Upgrade in Varicocelelectomy : which grade for which attitude ?

I. Ziouziou

Testicular or ejaculated spermatozoa ?

C. Wyns

Human papillomavirus carriage in the semen of men consulting for infertility: prevalence and correlations with sperm characteristics

D. Bosquet

HALL B :

SESSION

LECTURE

SPEAKER

Saturday AM

Embryology 2

Time lapse and AI for embryo selection : it's really help

T. Ebner

New developments in human IVM and understanding of human oocyte maturation

Y. C. Anderson

Improvements in clinical results from capacitation in vitro maturation (CAPA-IVM)

J. Smitz

KPI's and QC/QA/QM

B. Balaban

Coffee Break

DAY 3

SATURDAY 9TH

Saturday AM

Genetics and ART

RIF: the central role of the embryo in the definition and management of a clinical enigma

D. Cimadomo

Identifying gaps : whole exome sequencing vs specific panels in reproductive medicine

E. Fahim

The challenge of diagnosing chromosomal mosaicism for PGT-A

M. Popovic

New diagnostic tools, new patients care

S. Viville

Lunch break

Saturday PM

Reproductive Genetics

An active research field : Genetics of infertility

S. Viville

Oocyte quality : molecular and morphological markers

D. Cimadomo

Expanded Carrier screening for couples seeking ART

I. Ratbi

Is there a genetic marker of non obstructive azospermia

I. Ziouziou

Coffee Break

Hot Topic

IA & EBM : clinical and embryological perspective

X. Pollet

Meet the expert

Vitrification & Maturation In Vitro

X. Pollet -
J. Liebermann -
A. Doshi -
Y.C. Andersen -
J. Smitz

Andrology and genetics

H. Russo -
M. Benkhalifa -
D. Cimadomo -
E. Fahim -
M. Popovic -
S. Viville -
I. Ratbi -
C. Barrat

Main hall communication

PCOS-patients treated with-Bi-phasic-(CAPA)-IVM:Efficacy in infertile-ART-naive and previously failed IVF cycles

K. Mantravadi

DAY 3

SATURDAY 9TH

HALL C :

SESSION

LECTURE

SPEAKER

Saturday AM

Joint Session with the Indian Society of Assisted Reproduction (ISAR) & The Federation of Obstetric and Gynaecological Societies of India (FOGSI)

Ovulation induction in hyper responders

A. Baxi

Fertility enhancing surgery in endometriosis

A. Kale

Unchanged melody of Myomectomy

S. Tandulwadkar

Male infertility current practices and future perspectives

A. Kale

Coffee Break

Saturday AM

9H00 - 10H30
endometriosis
medical
management

Pain management in endometriosis patients

E. Somigliana

Microbiota in endometriosis patients

H. Khorsi

Magnetic Resonance Imaging In The Evaluation Of Female Infertility

N. Allali

Seamless management of adenomyosis from preconception to delivering a healthy baby

Y. Osuga

Lunch break

Saturday PM

Joint Session with the Japanese Society of Assisted Reproduction (JSAR)

Piezo ICSI and PGT-A a program with CNV and SNV analysis as an next generation of clinical ART in JAPAN.

T. Mukaida

Strategic approach for recurrent implantation failures(RIF) in one of the biggest fertility center in JAPAN, including PRP infusion, intralipid, immunosuppressive therapy, etc.

M. Shiotani

Cine-MRI reveals uterine contractions that affect embryo implantation.

Y. Tokunaga

Coffee Break

Female Infertility: A Systematic Approach To Radiologic Imaging And Diagnosis

N. Allali

DAY 3

SATURDAY 9TH

ROOM 1 :

Saturday AM

Joint session with Società Italiana Della Riproduzione Umana (SIRU)

Coffee Break

The mechanisms of endometriosis-related infertility

P. Piombini

Is endometrial receptivity and IVF outcome affected in women with adenomyosis

E. Somigliana

Should women with PCOS be considered sub-fertile

S. Palomba

What is the morphokinetics of the best embryo

D. Dell'Edera

In Vitro human endometium models for mimic the implantation window

A. Luddi

ROOM 2 :

Abstracts and poster lectures

ROOM 3 :

Saturday AM

WORKSHOP COOPER SURGICAL :New Approach to Embryo Culture and Andrology

Keys to build a successful IVF-laboratory

15 min

Sage GM-CSF Culture medium, Spermslow, PICSI and ZYMOT for sperm selection . New insights

15 min

Tips and Tricks of Embryo Biopsy and sample Tubing.

15 min

Tips and Tricks for vitrification/Warming From Oocyte to Blastocyste

15 min

Hands on

2H

Coffee Break

THANKS TO OUR PARTNERS
